"We got no warning at all," said Elvert Stephens. "It came down on Silverton out of the rainy night without warning. People died without even knowing what happened. In one family, seven are dead."

The seven persons in one family who were killed lived in two adjoining houses. They were Mr. and Mrs. Virgil Vaughan, Mr. and Rance Stephen and the three Stephens children. Mr. and Mrs. Vaughan were the parents of Mrs. Stephens.

TRUMAN AIDE MISSES POINT

WASHINGTON (AP)—A new skirmish in the political battle over the Korean War raged today between the White House and former Secretary of State Dean Acheson.

President Eisenhower mentioned the subject of prewar U.S. military strength in a speech Tuesday night. Acheson, a member of the Truman Cabinet, yesterday called the President's remarks "in bad grace."

And the White House promptly retorted that "apparently Mr. Acheson missed the entire point."

More was promised today. White House Press Secretary James C. Hagerty said the two men were discussing two different matters.

"The starving and depleting of our armed forces was a political decision, not a military one, over which the President — then Army chief of staff — had no control. As a matter of fact he protested frequently over gradual weakening of the armed forces," Hagerty said.

Hagerty said Acheson was referring to a decision to withdraw U.S. forces from Korea. The President, Hagerty added, was talking about a "political" decision prior to 1950 which Eisenhower said led to depletion of military forces.

SENATORS TO QUIZ GESSERT

WASHINGTON (AP)—Senate rackety investigators ordered a special hearing today to question Norman Gessert, a cousin in the Dave Beck family, on the whereabouts of three missing key witnesses.

Gessert, a cousin of Mrs. Beck, was reported en route by commercial airplane from the state of Washington, where he was subpoenaed after a month's long search.

The committee said it would convene the special public hearing if Gessert shows up on time, but in any event would try to get it in ahead of the scheduled session for renewed questioning of Beck, president of the Teamsters Union, about his financial dealings.

Robert F. Kennedy, committee counsel, told the committee at a hearing yesterday the evidence now indicates that Beck has "stolen" some \$320,000 of his union's funds.

Kennedy said Gessert will be asked to tell the whereabouts of the missing Dave Beck Jr., the Teamster president's son; Joseph McEvoy, husband of one of Beck's nieces; and Fred Verscharen, Teamsters Union auditor for the 11 Western states. Committee agents have searched for them for more than two months — since mid-January in the case of Verscharen.

Impressed By Efficiency

She described the European system of education, especially the gymnasium system which gives an equivalent to a Bachelor of Arts degree at ages 18 and 19.

She told the group that "what has most impressed me in the United States is your efficiency and your 'do-it-now' attitude."

Adding that "it is important to erase misunderstandings between nations," she said: "People in Europe have much the same problems as people here. It should be a task of all educated peoples in the whole world to widen their understanding of each other through such means as fellowships permitting persons from one country to work and study in another."

SUNDAY SALES BILL MAY GO TO LOCAL ELECTION

HARRISBURG (AP)—A Senate proposal under study today would put to the voters the question of whether large retailers and wholesalers should be allowed to do business on Sundays.

A Senate bill submitted yesterday would provide for local elections to decide the Blue Law issue.

Exempt from the prohibition if the local referendum favored no Sunday sales would be restaurants, hotels, motels, drug stores, service stations and stores employing three or less persons.

Violation of the law would carry a \$100 fine for first offenders and up to \$500 for second offenders.

The measure was sponsored by Sens. Harry E. Seyler (D—York), Edward J. Kessler (R—Lancaster), Ernest I. Walker (R—Cambria), and Jo Hays (D—Centre).

Exempt Buses

Another Senate bill would exempt public buses from the 8 mill state tax on gross receipts in public utilities.

Sen. Rowland B. Mahany, Republican floor leader, said the measure is part of a package he introduced last week to "help the sick bus industry."

The other measures would exempt urban buses from the 5-cent-a-gallon gasoline tax and drop their annual registration fees to \$1.

Buses now pay about \$140 for a 30-passenger bus.

Other senate bills would:

Drop from 1½ to 1-cent-a-gallon the state tax on jet fuel used in aircraft—(D—Westmoreland) (R—Cumberland) Mahany.

Create a legislative budget board to oversee all department appropriations and spending—Dent, Mahany, Yosko (D—Northampton), Scott (R—Carbon).

HITLER'S AIDE LEAVES PRISON

BERLIN (AP)—Walther Funk, Hitler's economic minister, today was released from Spandau war crimes prison.

Funk, serving a life term, had been in for a long time.

He was released from Spandau "without any prior announcement and quickly whisked away by car to a hideout in West Berlin."

Presumably he will go on to West Germany within the next few days.

Allied officials said the former Nazi leader was released "on account of advanced age and the state of his health." He is 66.

Funk was convicted as a major war criminal by the International War Crimes Court at Nurnberg on Oct. 1, 1946. He was found guilty of war crimes, crimes against humanity and of planning aggressive war.

The tribunal cited the fact that the vaults of his Reichsbank were used to store gold teeth and gold fillings taken from Jews who were gassed in concentration camps.

The court also ruled that Funk was connected with the Nazi slave labor program.

Haiti Turmoil

More Violent

PORT AU PRINCE, Haiti (AP)—Haiti's political turmoil grew more violent today.

Ten thousand farmers armed with knives blockaded the road to the capital to keep out food supplies. Arson and sabotage were increasing. The government said troops and police were battling armed demonstrators in many communities to put down "a state of terror."

Army headquarters said the situation was critical.

The capital itself remained comparatively quiet.

The seven-man Executive Council, which is supposed to be arranging for elections June 16, banned freedom of speech and muzzled the press, radio and judiciary in a desperate attempt to restore order.

The council, an interim government until a president can be elected, pledged again that free elections would be held. It said it was forced to abrogate the constitution's guarantees of liberty of expression because the nation's future was at stake.

PARIS (AP)—Premier Guy Mollet gambled on a foreign policy issue last night and came up today with what looked to French newspapers like a stronger hand to deal with domestic troubles.

In a dramatic gesture, Mollet offered to resign because he said he felt deserted by the United States and Britain in the Suez Canal crisis. As expected, President Rene Coty persuaded him to stay in office.

WASHINGTON (AP)—The House Appropriations Committee recommended today that the House use its budget-cutting ax sparingly on its own funds for the fiscal year starting July 1.

It approved a bill allotting \$78,470,285 to operate the House and related agencies during the next year. The House will debate the measure next week. The Senate will add its own funds when it considers the bill later on.

LONDON (AP)—Foreign Secretary Selwyn Lloyd said today Britain supports France's request for a new intervention in the Suez Canal dispute by the U.N. Security Council.

France has announced it intends asking the Council on Monday to demand full Egyptian compliance with the "six principles" laid down by the U.N. last October as the basis for a fair Suez settlement.

DOCTOR GUILTY OF 1953 MURDER

LEWISTOWN, Pa. (AP)—Dr. Samuel L. Woodhouse, 52, was found guilty by a Mifflin County jury yesterday of a first degree murder for the slaying of his 16-year-old foster daughter in 1953.

The jury of 11 men and one woman recommended life imprisonment. The defense attorney, Paul E. Fetterol of Lewistown, said he would seek a new trial.

Woodhouse was convicted of shooting the girl, Betsy, while she was napping Aug. 6, 1953. He was found semiconscious on the floor of his consulting room after the shooting and later told police he had drugged himself.

The defendant was sent to Fawcett State Hospital after a lunacy commission found him insane. He was later moved to Harrisburg State Hospital and subsequently released to stand trial. Woodhouse did not testify at the trial. A psychiatrist told the jury the doctor had been insane at the time of the killing.

R. Lee Ziegler, Mifflin County district attorney, had asked for the first degree verdict.

Britain Crowns George VI In History-making Splendor: London, England May 12 (AP) — Exultant Britain crowned and consecrated its sovereign, George VI, and his radiant Elizabeth today and hailed them with the thunder of a million cheers and the glory of a valiant past.

Torrents of rain beat down on their triumphal, dazzling cavalcade at the end of the greatest day of splendor that England ever saw. At the stroke of half past twelve, the venerable hands of Cosmo Archbishop of Canterbury placed the great St. Edward's crown upon the kingly brow, within the walls of Westminster Abbey, walls that looked down upon the 36th king they had seen so crowned.

Then followed the coronation of the Scottish queen.

Mothers' Board Officer Named:
Following the afternoon session of the Adams County Mothers' Assistance board at the court house Tuesday, announcement was made of the formal designation of Mrs. Rosalie Raffensperger, Arendtsville, as acting executive secretary for the board according to a statement made by Mrs. John C. Bream, board president.

Steel Strike Is Settled: Pittsburgh, May 14 (AP) — The nation's first major steel strike in 18 years ended today with a tentative peace agreement between the Jones and Laughlin Steel corporation and John L. Lewis steel union forces.

Two Hundred Mothers At High School Tea: Two hundred mothers of Gettysburg high school students were entertained at the first annual tea held in the school library by their sons and daughters Thursday afternoon at the high school from 3 to 5 o'clock.

The hostesses were the Misses J. Arlene Spangler, Anna Catherine Hoffman, Jean Culp and Janice Harbach.

Ten-Year Contract For Lights On Streets Signed: Gettysburg borough councilmen at an adjourned meeting Monday evening adopted an ordinance approving a new 10-year street lighting contract with the Metropolitan Edison company which, together with reduced rates on the ornamental light contracts, will save the borough \$1,343 annually on its light bill. That sum is about 20 per cent of the present total cost.

Prepare Park For Visitors: About 20 NYA youths from Adams county are engaged with others from Franklin and Cumberland counties in cleaning Caledonia park and preparing it for the season influx of tourists and other visitors.

Merrill Completed Atlantic Round Trip: Floyd Bennett Field, New York May 14 (AP) — Their round trip trans-Atlantic crossing virtually completed, Dick Merrill and Jack Lambie today reported they were looking for a "hole" in the overcast skies so they could bring their ship down for a safe landing.

Apply For License: A marriage license application was placed on file Tuesday afternoon at the office of the clerk of the courts here by Romaine Luther Pittenbarger, of York Springs and Mildred Gordianus Legore, of Hanover.

Today's Talk

BUILDING BOY SPIRIT
There is a community in New Jersey that has set an example that should spread. Citizens raised the money among themselves and built a fine grandstand, and mapped out a baseball park that would be a blessing to all the young boys in their town. They chose this way so as to give a healthful sport to restless boys and keep them off the streets and away from mischief.

In this town not only the young boys and girls but all the parents will be entertained and benefited. I couldn't help but wish I could have been brought up in such a place where the civic spirit seems to be so high.

Most of the boys and girls that get into trouble are not bad. They just have an excess of "animal" spirits, and need to be trained to take a healthy course. There isn't a game anywhere that can give so much interest and happiness to so many as a baseball park, established for the joy of all. Such an enterprise as that Jersey town can't help but be an investment that will pay spiritual dividends for every person concerned there.

On my TV set I have always enjoyed the interviews that have been given small kids interested in baseball. They meet many of the great in this game today, and those little fellows swell with pride when they listen to the advice and encouragement given by the noted players in the different leagues. Often a player will autograph a ball or present gloves to these hopefuls.

Millions of people glory in this national game, both in the United States and Canada, and I hope the day will come when there will be organizations in many parts of the world, so that there may be a final series that will in fact be a "World Series"! Baseball is a grand game and the players can't be praised too highly. They are good citizens as well as wonderful performers.

Tomorrow Mr. Adams will talk on the subject: "Trust Yourself!" Protected, 1957, by The George Matthews Adams Service

CALENDAR
If ever murdered I should be,
This statement now I make direct
To all who'd solve the mystery:
There'll be no butler to suspect.

This also I would have them know,
To save them time and make it clear:
No man I cheated long ago
In far Australia will appear.

The room in which my life I yield
Will not be left without a clue,
With every door and window sealed—
A feat most difficult to do.

Since butlers I have never hired
And have no foe about the place,
The man by whom the shot is fired
Will be most difficult to trace.

"ADVERSITY"

No one escapes adversity . . . of that we can be sure . . . it is a bad condition which . . . we all have to endure . . . it matters not who we may be . . . or what we chance to own . . . at one time or another we . . . must walk a troubled zone . . . heartaches have no exceptions . . . they touch the purest soul . . . always putting forth their best . . . but I believe that misery . . . is part of God's great plan . . . designed to stimulate our faith . . . and stem the fall of man . . . for trials are moral steppingstones . . . which make us stronger still . . . success comes after we . . . have scaled the rugged hill . . . and so we all should face each day . . . with hope in things to be . . . preparing for the storms of life . . . known as adversity.

Bubblers Hand Warrior Nine 7-4 Setback; Waynesboro In Final Game Here Monday

Boiling Springs High, regular season champs of the Adams County League, handed the Gettysburg High Warriors their sixth successive setback here Wednesday afternoon, 7-4, the Warriors miffing several golden opportunities when batsmen failed with runners aboard.

A pair of errors and an outfield fly gave the Bubblers a run in the top of the first inning. The Warriors bounced right back with two in their half on a walk to Ronnie Hankey, a fielder's choice on Harmon Spence's grounder, a life for Johnny King on an error, a double by Bobby Hess to score Spence and Bernard Lochbaum's single to send over King.

Gettysburg picked up another tally in the second. John McClellan walked and scored on Bob Furney's triple.

GHS Takes Lead

A walk, single and an error gave the visitors two runs in the third. Again the Warriors went ahead 4-3 with a run in the third via an error, walk to Lochbaum, single by Ron Harmon, fielder's choice and a sacrifice by Furney to score Lochbaum.

Boiling Springs tied it in the fourth on three singles and a walk. The Bubblers got what proved to be the winning run in the sixth after two were out. Wise was safe on an error and raced home on Clark's single on which another miscue was made. Four hits produced two insurance runs for Boiling Springs in the seventh.

In the fifth the Warriors filled the bases but couldn't score. McClellan hurled the first three frames for Gettysburg with Kenny Cullison taking over in the fourth and being charged with the loss.

Final Games Monday
Next Monday the Warriors, now 2-9, wind up their campaign by meeting Waynesboro in a South Penn League game on the Recreation Field diamond.

Hockey's Oldest,
Biggest Rookie

CLEVELAND (AP) — Experts in the American Hockey League believe Boris (Bo) Ellek, left winger of the Calder Cup champion Cleveland Barons, to be the oldest and the biggest rookie ever to play in the league.

Ellek is 27 years old. He is 5-foot-11 and weighs 190. When it came time to vote for the rookie of the year, Ellek received 26 out of a possible 30 points.

MADE HIS OWN SEAT
CHICAGO (AP) — Fifty years ago, White Sox fan Joseph Salomon got tired of sitting on the hard wooden benches at Comiskey Park. So he designed a metal folding chair and brought it to the park. Friends saw it and asked for same. Thus was born the leader in the manufacture of metal office, factory and institutional furniture.

"Mr. First" Keeps
His Record Clean

WESTON, Mass. (AP)—Omer C. Catan's reputation as "Mr. First" still holds good.

The 43-year-old resident of Teaneck, N. J., was the first paying customer when the 123-mile Massachusetts Turnpike opened at 12:01 a.m. today.

Catan claims he was the first paying motorist on the New York Turnpike, the Chesapeake Bay Bridge, the Garden State Parkway in New Jersey and the George Washington Bridge across the Hudson in New York.

SPLIT DECISION
FOR BOBBY BOYD

By CHARLES CHAMBERLAIN
CHICAGO (AP)—Bobby Boyd, who was bombed from the No. 2 midweight ranking by Joey Giardello eight months ago, still has a long way to go in his attempt to gain top contention.

The lanky, 23-year-old Chicagoan was not too impressive last night in winning his third straight fight since the Giardello incident with a split 10-round decision over shiftless Willie Vaughn.

The Chicago Stadium bout, which was nationally televised and broadcast, drew only 1,423 fans at ringside and a net gate of \$1,220.

Boyd, whose 43 victories in 52 bouts includes 22 kayoes, displayed little of the punching power that took him to the top before Giardello pulverized him in five rounds at Cleveland. And if Vaughn had any steam in his punches, Boyd may have been in trouble.

Referee Walter Brightmore favored Vaughn 46-45 under the five-point maximum system. Judge E. Allen Frankel liked Boyd 49-43 and Judge Harold Marovitz voted for him 47-45. The Associated Press card had Boyd on top 49-44.

THREE WIVES
INVOLVED IN
CUSTODY CASE

PITTSBURGH (AP) — Five-year-old James L. Krause is the central figure in a custody battle involving his father and two of his father's former wives, one of them Jimmy's mother.

The complex case came up yesterday before Judge James M. Guffey.

James R. Krause, 25, of Pittsburgh, filed suit to gain custody of Jimmy. He is joined in the suit by his third wife.

Mrs. Audrey E. Krause, 25, sec-

ond wife of the 58-a-week laborer, is fighting the suit. She has had custody of Jimmy since she and Krause were divorced Dec. 28, 1956.

Has Been Good Mother
Mrs. Susan Kraus Brooks

Kraus, who had two other children by his second wife, admitted that she has been a good mother

to his son. He has been paying her \$20-a-week for support of the three children.

The case was continued today but Judge Guffey indicated he will not hand down a ruling immediately.

Kraus, first wife and Jimmy's mother, appeared at the hearing in hopes she might gain her son's custody.

SCIENCE FAIR TO BE HELD AT LHS ON FRIDAY

Students and faculty of the Littlestown Junior-Senior High School are busy making preparations for the annual Open House and Science Fair to take place on Friday evening. Parents and friends are invited to visit the building on Maple Ave. from 6 to 10 p.m. tomorrow. There will be displays and exhibits by the science, home economics and industrial arts departments, as well as many live demonstrations.

The science department will have over a hundred displays, arranged on the first floor of the building. Four out-of-town judges will select the winners. Projects of the home economics department will be arranged in the cafeteria and the home ec rooms. Girls of grades seven through twelve will have projects of the school year for display, and there will also be several demonstrations.

The school auditorium will be filled with displays of work by the industrial arts department, and three out-of-town judges will choose the best projects. There will be live demonstrations from 7:45 to 9:45 p.m., with the following students in charge: Gene Miller, senior, and Larry Hawk, junior, in metal spinning; Robert Chronister, eighth grader, and Robert Little, ninth grader, demonstrating copper enameling; Dean Reynolds and Larry Unger, eighth grade students, in charge of copper foil. All of the items made during the demonstrations will be given away to adult patrons.

Property is Sold
The Junior Fellowship of Centenary Methodist Church will meet tomorrow at 6:30 p.m. at the home of the adult counselor, Mrs. Chester S. Byers, E. Myrtle St.

There will be a meeting of all those serving on the day camping staff for the Littlestown Brownies and Girl Scouts, this evening at 8 o'clock in the engine house. The May meeting of the troop committee members, troop leaders and assistants will also be held in connection with this session. Day camp will be held this week of June 17 at Camp Happy Valley.

Mr. and Mrs. Frank H. Fissel, Gettysburg, have sold their property near Mt. Hope, in Hamilton Twp., to Mr. and Mrs. Charles W. Singley, Gettysburg, R. 2. Immediate possession was given. The sale was made through A. C. Garland, Littlestown realtor.

Mr. and Mrs. P. Emory Weaver, N. Queen St., have returned home after spending three days at Pocono Manor as guests of the Donegal Mutual Insurance Company, Marietta. Mr. Weaver won the trip for outstanding sales performance during the first quarter of 1957.

Plan "Rec" Program
The Littlestown Borough School Board will sponsor the supervised recreation program on the community playground again this summer, as announced at the May session of the board held on Tuesday evening at the high school. The program will be conducted each weekday from 9 to 12 o'clock noon, starting on June 17. A total of 69 children have been registered to participate in the daily activities. The board authorized Paul E.

"Mary Jo" Wanted \$400 For Trousseau

PHILADELPHIA (AP) — "Mary Jo," a 17-year-old lonely hearts letter writer, wasn't "Mary Jo"—she was a 24-year-old man named Herb, postal inspectors said.
The man, Herbert S. Scott, Philadelphia, was indicted on a charge of using the mails to defraud.
Warren Bass, 39, Detroit, began corresponding with "Mary Jo" after seeing a lonely hearts advertisement with the picture of an attractive young girl, the indictment charged. Most of the let-

Big Carrier Hits Submerged Object

JACKSONVILLE, Fla. (AP)—The mighty aircraft carrier USS Franklin D. Roosevelt hit something submerged off the Florida coast yesterday and speculation was raised whether it could have been a submarine.
The skipper, Capt. T. W. Hopkins, reported an oil slick was observed after the collision and "all I know is that we weren't leaking any oil."

He rejected the suggestion of a submarine, however. He said radar and other detection devices would have picked it up.
"It could have been a whale," he said.
The impact was felt aboard the 51,000-ton ship which was conducting

There were no casualties among the 2,700 crewmen of the carrier and no damage was found inside the 974-foot vessel.

NEW RECORD FOR 'BRAINWASHING' IS REPORTED BY PSYCHIATRISTS

By ROBERT GOLDENSTEIN

CHICAGO (AP)—A possible time record for "brainwashing"—one hour and 38 minutes—was reported at a national meeting of psychiatrists today.

A team of Harvard University psychiatrists brought a volunteer quickly to a state of panic merely by placing him in isolation in an inactivated iron lung. They were studying sypchiatic aspects of stress.

Only 5 of 17 medical and dental students volunteers were able to stay in the respirator the full 36 hours the experiment was set to run.

Sensations Limited

The only stress imposed on the volunteers was the deprivation of the usual wide variety of sensations they experienced through sight, hearing and touch.

The team consisting of Doctors Donald Wexler, Jack H. Mendelson, P. Herbert Leiderman and Philip Solomon told of the tests in prepared reports at the annual meeting of the American Psychiatric Assn.

One by one the volunteers were placed on their backs in the iron lung in a semidarkened room. The subject could not see any part of his body. His vision was limited to a small section of the ceiling. An attendant sat silently behind him, out of sight, to feed him and attend to his needs.

Had Hallucinations

One volunteer, a 25-year-old unmarried dental student entered the tank and immediately com-

1,200 Pupils Adopt 51 Rules For Selves

FAYETTEVILLE, N. C. (AP)—The 1,200 pupils of Alexander Graham Junior High School here have answered "doubts and fears adults have concerning us."

The pupils adopted a 51-rule code of conduct for school, church, home and community.

Sample rules:
Wear clothes and styles accepted by the majority; attend only approved movies; frown upon smoking and "absolutely forbid drinking"; when out at night go home at a respectable hour; be sure parents know where teen-agers are at all times; take school and personal problems to favorite teachers.

plained of pain in the neck. Within an hour he was perspiring profusely. He started telling a series of jokes. Then he demanded a drink of water to determine if the observer was still in the room.

Within an hour and 15 minutes he began describing hallucinations. He dozed off briefly at two hours and awoke complaining of a pain in the left side.

At 7½ hours he wanted to leave the tank, but when the observer asked him if he was acutely uncomfortable he decided "I can stand it."

At 10½ hours he complained, "My left side is gone." Then he fell asleep.

He awoke at 14 hours and 54 minutes and asked in an anxious voice, "Well, to tell you the truth, I'm stuck here. Am I alone?"

He fell asleep on the 16th hour awoke on the 17½ hour and began pounding on the tank. Tears streamed from his eyes and his voice shook. The attendant removed him and spent 15 minutes calming him down.

His experience was typical of the majority.

SECOND YOUTH IS LINKED IN GIRL'S DEATH

HACKENSACK, N. J. (AP)—A surprise element entered the murder trial of Edgar Smith yesterday as his defense attorney claimed that the teen-age girl Smith is alleged to have bludgeoned to death was last seen in the company of another man.

John E. Selser, attorney for the 23-year-old ex-Marine, said Smith last saw Victoria Zielinski standing in a gravel pit with Donald Hommel, 21, of Ramsey, on the night of March 4. Her half nude battered body was found crumpled in the pit near some blood-stained rocks the following day by her father.

The 15-year-old dead girl's parents took the stand at yesterday's dramatic court session. Mrs. Anthony Zielinski broke down three times as she told of seeing her daughter's body in the pit, and Bergen County Judge Arthur J. O'Dea called a recess each time so that the distraught mother could regain her composure.

Looked For Daughter
Victoria's father, Anthony Zielinski, said he couldn't sleep the night of March 4, when his daughter failed to return home from a visit to a friend.

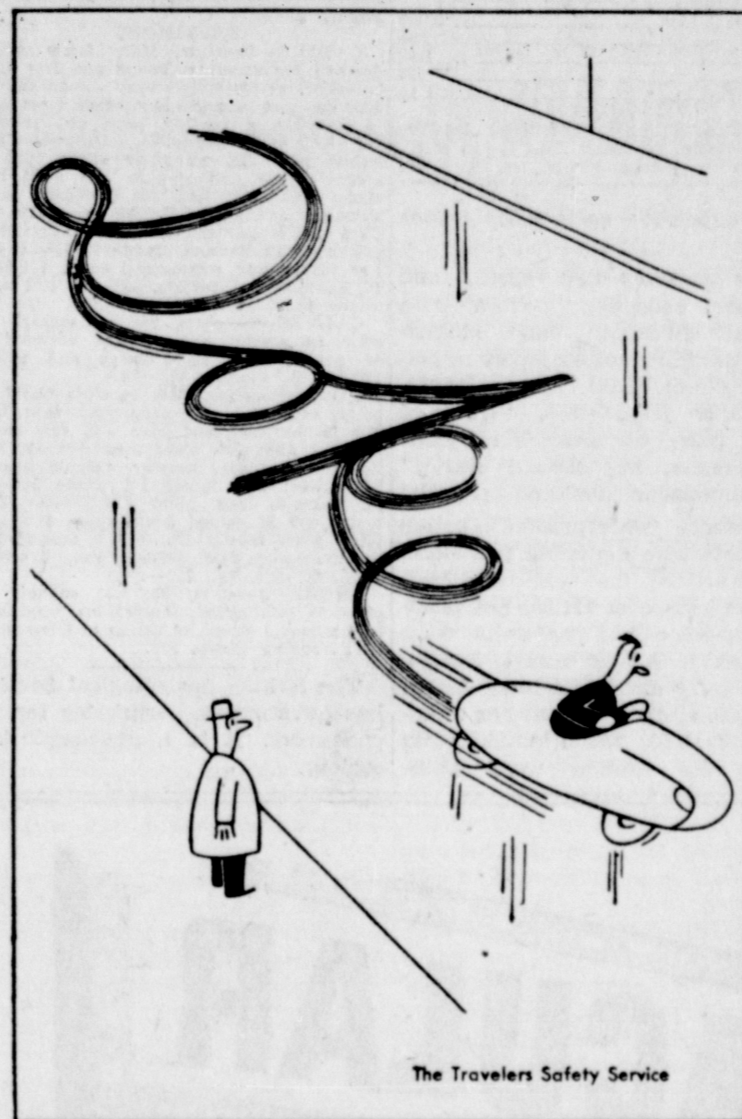

He told of riding up and down the streets of Ramsey, looking for the girl, and then of his horrified discovery as he viewed her body in the gravel pit the next morning.

In his opening statement to the jury, Selser quoted Smith as saying he had picked up Victoria when she hailed him as she walked home from the house of a friend.

Selser said they drove to the

TANEYTOWN — The Taneytown Volunteer Fire Company responded to eight alarms and two stand-by calls during April it was announced at a meeting Monday night in the firemen's hall. Twenty firemen attended the meeting.

grave pit to avoid Victoria's 13-year-old sister, Myrna, who was to meet the older girl and walk her home.

Girl Was Slapped
At the pit, Victoria suddenly told Smith his wife was "running around with another man," Selser said. Smith slapped her, and she ran from the car.

Selser quoted Smith as saying that another car pulled up at that point. Smith told him he heard a scuffle and Victoria then returned with Hommel, Selser said.

Her head was bleeding, and a handful of her hair had been torn out. She told Smith she had fallen, Selser said.

The attorney said Smith wanted to take her to a doctor, but Hommel pulled her from his car and said he'd take her himself. That was the last time Smith saw the girl alive, Selser said.

GAVE \$472,486 FOR SERVICES

PHILADELPHIA (AP)—The Philadelphia Methodist Conference was commended last night for contributing \$472,486 this year for world service and conference benevolences.

Praise came from Dr. Luther H. Ketels, district superintendent of the South District. In his report to the 171st annual Methodist Conference which opened yesterday, Dr. Ketels noted that this was \$77,000 more than last year's contribution.

Other gifts, he said, brought the grand total to more than a half million dollars.

Dr. Ketels urged his fellow Methodists to "face this day of opportunity in our central city with an intelligent and aggressive leadership." He emphasized what he called the need of establishing Methodist churches "in new communities, which our expanding metropolitan area makes necessary."

Church membership, in the conference, he reported, now stands at 129,601, an increase of 1,275 over last year.

At the opening of the session, the Sacrament of Holy Communion was administered to the conference by Bishop Fred Pierce Corson. This was followed by a memorial service for ministers, wives and widows of ministers and lay members who died in the past year.

The conference continues through Sunday.

Frequently taking journeys on his rail lines in 13 states, President Harry A. DeButts of the Southern Railway Company carries a notebook for complaints from both passengers and trainmen.

FRENCH FASHION HITS PARISIAN DIME STORES

By NADEANE WALKER

PARIS (AP) — The fashion writers nibbled their caviar, slipped champagne and then settled back skeptically to watch a "dime store" fashion show.

The writers who two weeks before had watched Dior's parade of thousand dollar creations had to pinch themselves to believe it. As the chic, stringbean mannequin swept out, the announcer gave the French equivalent of "cotton blouse \$1.25; ballerina slippers \$1.50; jute skirt \$4; beach bag \$1."

The showing was by "Prisunic," the Woolworth of France. The firm presents what are doubtless the cheapest ready-mades to be had in the country.

Most of the models obviously are inspired by low-price American clothes. Tourists and American residents in France who never thought of going to the Prisunic for more than a button might be surprised by the smart styling of the women's, men's and children's clothing sold off the rack.

"But how will it wash?" asked everyone at the show. "Very well, thank you," says Prisunic. It's guaranteed fast color.

Cotton Materials
Prisunic could — but doesn't — claim distant relationship with Dior. Prisunic uses much of the cotton material turned out by manufacturer Marcel Boussac. Dior, on the other hand, is backed financially by Boussac but doesn't use his materials.

Mlle. Denise Fayolle, 34-year-old stylist and fashion director of the French chain stores, is responsible for planning the fashion shows and selecting the models from the best presented to her by "confectioners" or French manufacturers. She is small, with blondish cropped hair, and all the assurance of an

American woman executive. Former ice-skating champion of France (she held the title for five years until displaced by Jacqueline du Bief in 1947), Denise is proud of having taught the late Jacques Fath to ice skate. One year she appeared in a skating act in a swank Paris night spot.

She says she "fell into fashion by accident," after a brief spell as fashion writer for a French magazine. When she went to Prisunic a few years ago the bargain stores carried only a few dresses in black, navy or gray, size 48. Denise created her own "confection" by commissioning three smart designers — Maxime de Palaise, whose own house failed, Yves Grieden of Maggy Rouff, and Chastel, who used to design for Dior. Their designs are made up by two Prisunic manufacturers.

Sales Triple
In three years, clothing sales had more than tripled. Prisunic is now by far the biggest ready-to-wear house in France.

Most dresses are made up in from 4,000 to 10,000 copies. The

President Predicts Nation "Will Be In Trouble" If Defense Budget Is Slashed

By MARVIN L. ARROWSMITH

WASHINGTON (AP)—President Eisenhower said Wednesday that if Congress trifles with defense spending the country is going to be in trouble.

Eisenhower made the statement at a news conference in commenting on reports that a House Appropriations subcommittee has decided tentatively to cut the Defense Department's request for new appropriations by 2½ billion dollars.

Eisenhower said he believes the department has taken the position that new defense appropriations could be cut about a half billion dollars.

But he went on to say that if the House subcommittee goes beyond that point and makes an additional honest cut of two billion dollars, he wants to see just how it is done.

"Educated All Over"

Eisenhower said he has been around Washington a good many years. Then he added that if we are going to trifle with defense spending, we are going to be in

trouble.

He said that if such cuts as reported are possible, he is going to have to be educated all over again.

A good part of Eisenhower's news conference was devoted to a discussion of the administration's \$71,800,000,000 spending budget, and Eisenhower's defense of that program in a nationwide television-radio address last night.

Eisenhower, wearing a brown suit with a white shirt and brown tie, also discussed these other matters:

POLITICS — Eisenhower said he believes he is growing more conservative so far as his political philosophy is concerned.

MODERN REPUBLICANISM — Reminded that he interpreted his re-election last November as a victory for Modern Republicanism and as a mandate from the people in support of his program, Eisenhower said he believes that as the general public is informed regarding his objectives they probably will support that for which they vote.

ISRAEL — Eisenhower said he sees no objection to Israel's sending a ship through the Suez Canal as a peaceful test.

He added that on the other hand any use of force in such a test would be reprehensible.

DISARMAMENT — The whole matter of Russia's limited "open skies" disarmament proposal is still under earnest study, Eisenhower said.

Where the study will end up he said he couldn't possibly predict.

CIVIL RIGHTS — Asked whether he believes the administration's civil rights program might hurt the Republican party's chances in the South, Eisenhower replied that in his opinion the program will do no such harm in the long run.

Eisenhower called it a very moderate program in accord with the Supreme Court's desegregation decision.

Laughs About Tour

LEE — Eisenhower joined heartily in a round of laughter touched off when a reporter brought up the tour of the Gettysburg battlefield last weekend by the President and British Field Marshal Viscount Montgomery.

After that tour Eisenhower and Montgomery agreed that Lee and Meade, respective commanders of the Southern and Northern forces at Gettysburg, should have been "sacked."

Eisenhower said today he wanted to put in another word regarding that matter, which has stirred up so much controversy, especially in the South.

Eisenhower reminded newsmen that in his White House office he has portraits of Benjamin Franklin, George Washington, Abraham Lincoln and Robert E. Lee.

He said he regards those men as four of the greatest Americans, and added that anybody who tries to put him in any other position is mistaken.

Eyes Senate Probe

BECK — Eisenhower said embattled Teamsters Union chief Dave Beck is not the only labor leader who has called on him at the White House.

That remark was prompted by a newsmen's statement that Beck has had close White House ties. The reporter then asked whether the President feels that employers should be subject to a code of ethics such as recently adopted by the AFL-CIO for its union members.

Eisenhower said he did not see why the newsmen had singled out Beck in the preface of his question.

Eisenhower repeated that the administration is keeping a close watch on a Senate committee's investigation of racketeering in unions. The close watch's purpose,

was to find out whether legislation is needed to protect the rights of workers.

MILITARY — Progress is being made toward closer unification of the armed forces, but not as he would like to see it made, Eisenhower said.

SOVIET — Questioned about indications of a change in Russia's attitude on disarmament and other matters, Eisenhower speculated that the Soviets are, as he put it, feeling the pinch of tremendous military costs.

The United States, he said, will insist on a quid pro quo (this for that) arrangement to get as much as it gives.

FORBES — Eisenhower said he regards Malcolm S. Forbes, New Jersey state senator who is Republican candidate for governor, as a very fine gentleman. The President put it that way when asked whether he intends to do anything in behalf of Forbes' gubernatorial candidacy.

Eisenhower said he has known Forbes some time and that it would seem natural to say a word in his behalf if he gets a chance.

CANNERS' FILM WILL BE SHOWN IN WASHINGTON

WASHINGTON, D. C. — "The Story of John Porter," a 25-minute color-sound film, will have its premiere showing at 4:45 p.m. Wednesday, May 22, in the Presidential Room of the Statler Hotel here, under the auspices of the National Canners Association, which had it produced as part of its current Consumer and Trade Relations program.

Guests invited to the premiere are members of the Senate and House Agriculture Committees, officials of the Department of Agriculture, farm organization authors and editors, officers of horticultural and youth organizations, agricultural writers, editors and broadcasters. Following the showing there will be a reception in the adjacent Congressional Room.

Appeal To Youth

Objective of the film is to encourage the youth of America to adopt horticulture as a career, for from this science have come the practices that result in high quality fruits and vegetables for processing.

The film is one of the canners' contributions to the educational work of the National Junior Vegetable Growers Association. The N.C.A. Farm Youth program gives support to the work of the National Junior Vegetable Growers Association, an organization which encourages young people to take an interest in raising fruits and vegetables and making horticulture a career. N.J.V.G.A. sponsors a number of annual contests to promote its purpose, among them a Canning Crops Contest. Boys and girls from 14 to 21 may enter the contest and grow either a fruit or vegetable crop. An important part of the contest is selling the crop to a cannery and keeping records of all agricultural procedures and

Eisenhower added, is to find out whether legislation is needed to protect the rights of workers.

MILITARY — Progress is being made toward closer unification of the armed forces, but not as he would like to see it made, Eisenhower said.

SOVIET — Questioned about indications of a change in Russia's attitude on disarmament and other matters, Eisenhower speculated that the Soviets are, as he put it, feeling the pinch of tremendous military costs.

The United States, he said, will insist on a quid pro quo (this for that) arrangement to get as much as it gives.

FORBES — Eisenhower said he regards Malcolm S. Forbes, New Jersey state senator who is Republican candidate for governor, as a very fine gentleman. The President put it that way when asked whether he intends to do anything in behalf of Forbes' gubernatorial candidacy.

Eisenhower said he has known Forbes some time and that it would seem natural to say a word in his behalf if he gets a chance.

expenses. At the end of the season, N.J.V.G.A. makes awards to national, regional and state winners.

Special Guests

Among special guests who will be introduced in brief ceremonies at the film premiere are four young members of N.J.V.G.A., who are in the cast of characters of the picture. They are officers and prize winners of the organization, including the real John Porter, 21, Baldwinville, N. Y., sophomore at Cornell University, and president of N.J.V.G.A., and Gary Marlin Bishop, 17, of Mount Blanchard, Ohio, high school senior, national champion tomato grower and winner of the 1956 Canning N.J.V.G.A. On the following day, May 23, young Bishop will receive the National Canners Association championship plaque, presented by Senator John W. Bricker of Ohio, following his address to members of the N.C.A. Board of Directors. He won the honor last year over approximately 600 contestants from 25 states.

Others To Be Feted

Other young members of the film's cast being feted by the canners are Sarah Pratt, 17, Ithaca, N. Y., high school junior, secretary of the New York 4-H Vegetable Growers, and Ralph Harper, 18, Rochester, N. Y., high school senior, winner of the national variety trials contest.

During their stay in Washington the group will have an audience at the White House with Governor Sherman Adams and at the Department of Agriculture with Under Secretary True D. Morse, as well as audiences with their respective senators and congressmen. They will be conducted on a Washington sightseeing tour and be photographed on the Capitol steps and with various agricultural leaders.

The first American flag was one carried by the Philadelphia Troop of Light Horse in 1775 and had thirteen BLUE and SILVER stripes. George Washington changed it to red and white stripes.

Billy Graham's New York Crusade Gets Rousing Start

NEW YORK (AP)—Billy Graham's New York crusade got off to a rousing start last night. He said it could be the "beginning of a spiritual fire that will sweep this nation and ignite the world."

A crowd of 18,500 filled Madison Square Garden as Graham drummed at the "moral sickness" he said was loose in the land, and pleaded for a change of heart.

"We have lost God," he declared, his voice stern, his arms outthrust. "We have lost our anchorage, our moorings, our moral direction, our spiritual sensibilities."

485 Conversions
At the end of the sermon, when he appealed for those who would "give your life to Christ" to come forward, 485 people came. He said it was "the largest first-night response I've ever seen from the pulpit in America."

They filled up the aisles, and down from the bunting-draped galleries. They crowded the escalators, moving to the ground floor, and clustered around the speaker's platform, a few of them tearful.

Dramatic Interval
"As you come," Graham said, "many of you are not quite sure what is happening to you. It is a new birth. It is something God does for you supernaturally."

It was a dramatic interval, with the arena lights dimmed, and the choir of 1,500 singing softly. "Just as I am, I come, I come," Graham stood with head bowed, his chin on one hand.

At the outset of the service, he expressed belief that the crusade may stir a "spiritual revolution." It is scheduled to last for at least six weeks.

Crowd Came Early
"We need a spiritual revolution in America," he said, "and the place where it could begin is in New York."

A mass of greenery encircled the pulpit—poised ivy, ferns, cedars and other shrubs. Above it stretched a long blue banner, lettered in white: "Jesus, said, 'I am the way, the truth and the life.'"

American flags hung from the ceiling. The crowd began gathering hours before the meeting. When the doors opened, they jammed the ground-floor chairs, and filled the three tiers above to the eaves, except for a few places high behind the pulpit.

Overwhelming Response
As he spoke, the huge crowd sat hushed, rapt. And when he gave the invitation for new believers to come forward "reverently and quietly," they did so, moving along silently.

There were gray-haired, elderly people, teen-agers and young married couples. All were ushered into a basement auditorium for individual counseling.

The response was overwhelming. Graham later told a packed roomful of more than 100 reporters. "It was beyond anything I had anticipated."

He said it usually takes several weeks for a crusade to generate the influence to affect people in such numbers.

The first-night audience was made up almost entirely of New Yorkers, although one chartered plane-load of people was on hand from Chicago.

The tangerine is really a small orange, named for its native Tanager, Africa.

26 SWORDSMEN CONTINUE OLD JAPANESE ART

LONG BEACH, Calif. (AP)—Practitioners of the ancient Japanese art of sword fighting energetically swing away at each others' heads here every Thursday night.

That the 26 club members always manage to turn up again for another battle is testimony both to their love of an exacting sport and the fact that unlike their samurai ancestors—who used swords of steel—their weapons are made of bamboo.

The Long Beach Kendo Club was organized a year ago at the Japanese Community Center to cultivate interest in the art by which the samurai professional warriors of feudal times dispatched their foe.

Kendo is not just a sport, however, but a way of life involving mental discipline, character building and philosophic development, says Dr. Gordon Warner, one of four Caucasian members.

Besides the rigors of kendo training, youths are taught respect of parents, the value of an education and participation in community activities.

In the old-time version, the weapons were sharp steel swords weighing four pounds. They were wielded with such force and dexterity that the vanquished might be sliced in half, have his head slit open, lose an arm or have his throat pierced.

An imperial edict in 1868 banned the samurai from wearing swords. They had to find a less violent method of settling differences, and the modern version of kendo fencing was developed.

The gladiators use foils made of bamboo strips bound together into a stick 3 feet 8 inches long and weighing 16 ounces. It is called a shinai.

Each fencer wears a quilted half sleeve jacket, a full-length skirt split into two full trouser sections, a heavy woven belt, a chest protector, heavily padded gloves and a steel mask.

Matches are five minutes in duration. The first fencer to score three points wins and points are awarded on the basis of the type of hit scored: a "men" meaning a blow on the top of the opponent's head; "tsuke," a strike at his throat; "do," a smash into the right side of his torso; and "kote," contact on his right wrist.

Matches can be extended into a two-minute overtime period during which the first to score a point is the victor.

Tooth Cap In Lung Silences Presley

HOLLYWOOD (AP)—A porcelain tooth cap has put Elvis Presley in the hospital.

The singer swallowed the cap Tuesday during a film dance number at MGM. It passed through the windpipe and into the lung.

It bothered him yesterday, so he was taken to Cedars of Lebanon Hospital, where X-rays revealed its location. A doctor retrieved the cap, but a spokesman said Presley is expected to be out of action for another day or two.

Britain Becomes Third Nuclear World Power; Reactions To Test

LONDON (AP)—British newspapers declared today Britain's first hydrogen bomb test had restored the nation's independence of the United States and increased its stature as a world power.

Asian nations quickly expressed regret at the blast, exploded yesterday in the Christmas Island area of the Pacific. But U. S. officials welcomed the news as contributing to Allied strength by making Britain the world's third full-fledged nuclear power, along with Russia and the United States.

Reports from Washington said, however, the British H-blast was considered certain to result in new pressure on both the British and American governments to call off future atomic weapons tests.

Assumed Successful

Such demands were renewed at once in Japan and Ceylon, where government officials asserted it was regrettable that Britain had gone ahead with the tests in the face of widespread opposition.

The British press generally assumed the test was successful although a terse announcement from the ministry of supply said merely that the "first explosion of a nuclear device in the present series took place."

The announcement did not give any details nor pinpoint the site of the explosion in the Christmas Island area 1,400 miles south of Honolulu, saying only the device was exploded at a "high altitude."

H-Bomb From Bomber

Other authoritative sources said the device tested was an H-bomb fired after being dropped from a four-engine Valiant jet bomber.

Most London editors took the view that possession of the H-bomb will free Britain from so much reliance on the United States and give it a strong role in future world disarmament conferences.

Nagasaki Protests

"Now she (Britain) is a nuclear power," declared the Conservative Daily Mail. "She not only possesses the bomb, but she knows that it works. So do other countries. This is why yesterday's explosion is so momentous."

The British government turned down repeated requests to halt the tests, saying they would be conducted at high altitudes and that the fall-out would not create a radiation hazard.

The World War II atom-bombed city of Nagasaki sent Prime Minister Macmillan a message of protest.

OPPORTUNITY OF FREE WORLD WAS LOST IN HUNGARY

By LEWIS GULICK

WASHINGTON (AP)—A House Foreign Affairs subcommittee said today that what it called failure of the free world and United States to take positive action in the Hungarian revolt "constitutes the lost opportunity of our generation."

It called for restudy and revision of U. S. strategy in possible future satellite uprisings, suggested get-tough steps against the Soviet Union as long as it defies the United Nations on Hungary, and recommended creation of a permanent, mobile force of U. N. observers.

Rep. Fulton (Pa.), one of the two Republicans on the five-member subcommittee headed by Rep. Edna F. Kelly (D-N.Y.), took sharp issue with some findings in the majority report.

Hindsight Doesn't Help

Fulton said President Eisenhower and other U. S. officials acted as speedily and wisely as conditions permitted in the Hungarian rebellion of last October.

He said that even with hindsight, the subcommittee recommends no specific steps that the

\$4 FISHING LICENSE BILL LIKELY DEAD

HARRISBURG (AP)—A controversial plan for a \$4 resident fishing license fee went back to committee and apparent death because of a lack of popular support, Rep. Clarence G. Stoner said today.

Stoner, chairman of the House Fisheries Committee, said the plan was discussed on the House floor yesterday to test Republican sentiment for it. A number of Democrats had previously declared their opposition.

"There just aren't the votes there for that bill," Stoner said. "We'll work it over again."

Favored Increase

The present fee is \$2.50. Stoner has favored an increase of less than \$1.50 together with a special stamp for trout fishermen.

The lack of strong support for the \$4 fee can be partly attributed to opposition from farm water fishermen, who maintain that trout fishermen gain a greater benefit from the fish commission's stocking and propagation programs.

Stoner reported that the proposal's defeat became apparent in the Republican caucus but that it had been brought to the floor at the insistence of Rep. Robert Breon (R-Centre), one of the bill's sponsors.

The Fish Commission sought the introduction early in the session of a measure for a \$5 fee but was unable to obtain a sponsor. It has maintained that a considerable reduction in its programs will be necessary without an increase.

STATE MAY BUY UNUSED SCHOOL

HARRISBURG (AP)—An unused high school near Locust Gap, Northumberland County, would be sold to the State Welfare Department for use as an institution for mentally retarded children under a bill in Senate committee today.

Sen. Samuel B. Wolfe (R-Union) and Sen. Joseph M. Barr (D-Allentown) submitted a bill yesterday that would allocate \$200,000 for purchase of the two-story, brick structure.

"At the present time the school is unused because we had a jointure in that area some time ago and all the pupils have been assigned to the jointure school," Wolfe said.

"In addition to its usefulness to the Welfare Department, it would also provide the township with the money and cut down the expense of paying insurance on the building and upkeep," he added.

The Senate proposal also would appropriate \$235,000 for alteration, repair and maintenance of the structure.

"It is in good condition and Welfare Secretary (Harry) Shapiro said he could use the building nicely for treatment of mentally retarded children," Wolfe explained.

administration didn't take. The majority "simply complains of the necessary time" required for consultation for joint U. N. action, he said.

The subcommittee, whose jurisdiction is European affairs, issued its findings after a 12-day Eastertime trip to Britain, France, Germany and Austria.

The subcommittee said present U. S. policy toward revolt in the satellites is only (1) that his country will not intervene militarily and (2) that it will give advance assurance of this to the Soviets.

NEW PRESSURE SEEN AGAINST NEW ATOM TESTS

By JOHN M. HIGHTOWER
WASHINGTON (AP)—Britain's explosion of her first hydrogen bomb is considered certain to bring new pressure on both the American and British governments to call off future atomic weapons tests.

American officials welcomed news of the British test as contributing solidly to Allied strength.

On the issue of ending weapons tests, American and British policy to date has been firm in resisting all pressures, whether from Soviet propagandists or from friendly nations like India and Japan—which are fearful of radiation effects. The United States and Britain contend the tests must continue to assure free world strength, unless and until Russia agrees to some foolproof system of disarmament.

May Be Carried Far
Nevertheless officials privately concede their policy is difficult to support positively before public opinion of many nations.

The British hydrogen bomb explosion yesterday was described as taking place at a high altitude. Dr. Willard F. Libby of the Atomic Energy Commission said this meant that there would be very light local fall-out of radioactive

Three birthdays were observed in May by Mr. and Mrs. Ray Geiger and Franklin Tyler. Refreshments were served by the hostesses.

Herbert W. Rogers was elected president of the Vigilant Hose Company at the monthly meeting Tuesday night in the Firemen's Hall. J. J. Hollinger was elected vice president; J. E. Houck, secretary; and Guy McGlaughlin, treasurer. J. S. Hollinger was elected chief; Sterling White, first assistant chief; Charles Stouter, second assistant chief, and James Kemp and Clay Z. Green as directors for the coming year.

The annual Firemen's Drive has reached the half way mark, it was announced. The goal this year is \$3,000.

material, since it avoided blasting large quantities of surface matter into the air.

However, even in such circumstances some radioactive material is generated in the explosion. Since the blast was at a high altitude, the material is likely to be carried far from the scene of the test before it falls to earth.

"Greatest Show On Earth" Is Missing From Railroad For First Time In 84 Years

This year for the first time in eighty-four years, the shiny silver trains that once transported the "Greatest Show On Earth" are missing from the rails. The Ringling Brothers and Barnum and Bailey Combined Shows gave up their annual rail tour of the hinterlands last year. Except for the Clyde Beatty Show, which expects to move on the high iron this year, the circus and the railroads have ended a collaboration that began a century ago.

To Dr. Gilbert A. Spaulding, a New Albany, Ind., druggist and co-owner of the Spaulding and Rogers Show, goes the credit for putting the circus on rails. For some years, he operated a circus boat, *The Floating Palace*, on the Ohio and Missouri Rivers. In 1856, he rented some railroad cars, loaded his show on them and inaugurated 100 years of circus transport by train. In 1872, P. T. Barnum put his show on rails and in 1890, Ringling Brothers followed suit. Until some of the smaller shows began using motor trucks in comparatively recent years, virtually every circus worthy of the name traveled in railroad cars.

The railroads had a hand in combining Ringling Brothers and the Barnum and Bailey Circus in what the press agents proclaimed the "Greatest Show on Earth." In 1903, Ringling acquired the Barnum and Bailey outfit but continued to operate both shows as separate entities. When World War I handed the railroads the biggest job in their history up to that time, the lines announced in 1918 that they could no longer handle two large circus movements. The Ringling interests decided to merge the two shows in 1919.

As the Gargantua among the purveyors of entertainment in the sawdust ring, the Ringling show sometimes had more than 100 cars in its consist. When its trains were sidetracked last year, the show was using seventy cars to transport 1,400 performers and employees, a zoo of more than 1,000 animals, fifteen acres of canvas, seventy-two miles of rope, five miles of electric cables and an assortment of wagons, mechanical equipment and supplies. Included in the consist was the nation's only complete laundry and dry cleaning plant on wheels.

The twenty-seven coaches used to transport personnel in the Ringling show included compartment cars for the star performers, but most had triple-tiered berths. The sideshow performers rode in a specially-built car that had an oversized berth for the giant, much shorter versions for the family of midgets and an extra large bed for the fat lady. Midway in the consist of the performers' section of the Ringling train was the "glamour car"—so called because it was reserved for the unmarried show girls. Since the car housed the minor aerialists, equestriennes, etc., it lacked the luxury of either a tub or shower. Bathing was accomplished by using large buckets of water placed either in the aisles or in the women's dressing tent during stopovers.

John Ringling North's luxurious private car, *Jomar*, always rode at the end of the circus train. Only one performer ever rated a private car, however. She was Lillian Leitzel, the aerialist, and one of the greatest circus artists of all time. She joined Ringling Brothers in 1919 and demanded—

WONDER FABRICS NEW, CALL FOR SPECIAL CARE

By EDWARD S. KITCH
CHICAGO (AP)—Those miracle fabrics should be handled with care.

A manufacturer says cold water washing and moderate drying heat are necessary to prevent permanent damage.

A panel studying the handling of garments made of man-made fibers has found the most favorable

and was given—her own car.

Jumbo, the giant elephant who is probably the best-known circus animal of all time, died in a railroad accident. It was the night of September 15, 1885, in St. Thomas, Ontario, Canada. The performance of P. T. Barnum's show was almost over and the elephants were being marched aboard their train which waited on the main line of the Grand Trunk. Suddenly a freight train roared down the line, struck Jumbo from the rear and jammed his huge head against a circus car. He died of a fractured skull and other injuries.

In the heyday of the circus in the U. S., there were twenty-five shows traveling aboard their own special trains. There were probably 100 others that owned their own cars, but were small enough to travel in regular trains. The coming of the movies, rising transportation costs and the constant demand of the customers for more expensive acts and staging sounded the death knell of the big shows. By 1929, only a dozen railroad circuses were left. By 1940, only two were touring. This year, only the Clyde Beatty Circus will take to the rails. Instead of three or four special trains, it will move its entire show in fifteen cars.

temperature for washing synthetics was 60 degrees, although some can stand 100 to 120-degree water.

A report submitted by Dr. R. W. Peterson at a meeting of the Textile Research Institute points out that the most harmful variable is spinning the fabrics while they are warm or hot in a drier.

According to the research team, heat activates the fiber molecules and places them in a mobile state. If the fibers are compressed by rapid spinning while warm, the fabric forms deep creases, which become set in the fabric upon cooling.

The recommended drier temperature is about 170 degrees. Light loads require a buffer material such as a towel.

Over the past 10 years, increased production of older man-made fibers and a newer series of synthetics have won a lion's share of the textile market.

U. S. Department of Commerce reports show that the world output of man-made fibers has grown to five billion pounds a year.

Kinds Of Fibers

The department also has classified man-made fibers according to their basic raw material. They are:

1. Cellulosic fibers made from wood pulp and cotton linters (rayon and acetate).
2. Protein fibers made from corn, peanuts and milk (zein and

casein fibers such as Vicara).

3. Mineral fibers made from sand and limestone and soda ash (glass fibers).

4. Synthetic fibers made from petroleum and coal byproducts (nylon, acrylic, polyester, polyethylene and vinyl chloride).

Their manufacture includes three steps:

1. Chemical action or heat transforms the raw material into a viscous solution.

2. Fine streams are formed by forcing the solution through fine holes in a spinneret.

3. These streams harden in a space of a few feet and become solid filaments and then they are twisted and wound on bobbins to form thread.

While these fabrics have many attributes such as high tensile strength, durability and resistance to mildew, they have the drawback of a tendency to electrification by static.

Static Problem

Static electricity is lessened when the synthetics are blended with natural fibers. It is much less of a problem in synthetic fibers with a flat weave. This problem often is overcome with an anti-static compound or metal thread interspersed in the fabric to act as a "ground." But an effective anti-static method is yet to be devised.

Dr. Peterson says the low moisture regain characteristics of synthetics cause difficulties when

they are dyed. The high temperature required for the job and strong chemical processes force makers to dye them during manufacture. Despite these hydrophobic—low absorption features—and the thermoplastic characteristics, many of the synthetics can be machine

washed and made ready for wear without ironing.

The first Indianapolis Motor Speedway race was held in 1909 over a dirt track. Because of numerous accidents, it was paved with brick for the next race.

MILWAUKEE (AP)—The baseball season is still young but Milwaukee already has its pennant. A tiny gibbon was born in the monkey house of the Washington Park zoo here on the opening day of the baseball season. It was named, appropriately, Pennant.

SMART BRIDES STUDY PROPER WEDDING DRESS

By DOROTHY ROE
The Associated Press

Happy the bride who checks up in advance on correct wedding attire and greets the big day calm, collected and secure in the knowledge that her costume is perfect from gloves to veil.

Whether the wedding is an informal ceremony at home or an elaborate church wedding, it should be memorable and perfect in every detail. And it can be, if bride and groom and parents do their planning carefully and well in advance. Etiquette authorities are of help at this time, offering tips on correct wedding attire for bride and groom.

At a formal wedding, either daytime or evening, the bride wears a floor-length gown with train and a floor-length or fingertip-length veil. If the ceremony is an elaborate church wedding, the gown should have a full cathedral train and should be worn with a full-length veil. If it is a smaller, more simple chapel wedding, a short chapel train and finger-tip veil are correct. Accessories include either prayer book or bouquet, white slippers (or a matching pastel if the wedding gown is tinted) and long white kid gloves, reaching above the elbow.

Cutaway Worn
The bridegroom wears cutaway or club jacket, gray striped trousers and fawn flannel or white linen waistcoat for a formal daytime wedding, white tie and tails for an evening ceremony. With the latter outfit white kid one-button gloves are a must.

Things are simpler for an informal at-home wedding. The bride may wear an ankle-length wedding gown without a train, a short veil and short white gloves. The bridegroom may wear a dark business suit for a fall or winter wedding, or dark coat and white trousers for a summer occasion. The white jacket and dark flannel

GOURMET FEED IS LET-DOWN FOR NEWSMAN

CHARLESTON, W. Va. (AP)—Reporter Jim Millstone's boss at the Daily Mail took pity on him after a steady diet of bullet peas

and banquet roast beef.

He called in Millstone for a free feed, a menu fit for a gourmet: escargots, better known as snails; grasshoppers, an Asiatic delicacy; and that fine old American dish, diamondback rattlesnake with sauce supreme.

"I sat down to a spread that would have brought an eager glint to the eye of Duncan Hines himself," Millstone said. His report on the meal's success was something else again:

"Rattlesnake meat—with summer sauce—tastes something like clam chowder had no taste. It has a kind of dull taste. Salt, pepper, ketchup and mustard might improve it but by the time I thought of that, my gaze wandered to the plate of grasshoppers.

"How to describe it? Well, imagine you pick up a grasshopper in the grass, break him in half and roast him to a crisp over a safety match. When burnt brown,

pop into mouth."

Next came that delight of French chefs, snails.

"Perhaps I lack the cosmopolitan air, perhaps I am at heart a country boy," Millstone admitted. "But to me that snail tasted like a middle-sized rubber eraser that had been soaked in greasy water for six weeks. It had more feel than taste. It felt terrible."

National League Has Big Hitters

NEW YORK (AP)—That the National League has the best home run hitters is proven by the table which shows that nine senior circuit sluggers have hit 40 or more home runs in one season.

They are Willie Mays (51 in 1955 and 41 in 1954), Ted Kluszewski (49 in 1954, 47 in 1955 and 40 in 1953), Ed Mathews (47 in

1953, 41 in 1955 and 40 in 1954), Ernie Banks (44 in 1955), Duke Snider (43 in 1956, 42 in 1955 and in 1955 and 40 in 1954), Gil Hodges (42 in 1954 and 40 in 1951), Hank Sauer (41 in 1954), and Wally Post (40 in 1955).

In the American League the only active players to hit 40 or more homers in a season are Mickey Mantle (52 in 1956), Ted Williams (43 in 1949) and Gus Zernial (42 in 1953).
